PROFESSIONAL SUMMARY

BSIT graduate with 3 years of freelance experience building full-stack web and mobile applications. Proficient in the MERN stack, Python-PostgreSQL, and cross-platform mobile development using Flutter and Kotlin. Brings a working background in UI/UX design alongside development, covering everything from mockups to deployment. Open to full-stack, front-end, back-end, and UI/UX design roles where real-world skills translate directly into meaningful contributions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js
Backend: Python, Node.js, PHP
Databases: PostgreSQL, MySQL, MongoDB
Design/UI: Adobe Photoshop, Illustrator, Adobe XD, Figma
Tools: Git, GitHub, VS Code, MS Word, Excel, PPT
Mobile: Flutter, Kotlin

RELEVANT WORK EXPERIENCE

Freelance Full-Stack Developer **2026 - Present**

Self-Employed / Remote

- **Web Development:** Built and deployed custom web applications for various clients using HTML5, React.js, Next.js, Python, PHP/MySQL and PostgreSQL.
- **UI/UX Design:** Created professional logos, mockups, and user interfaces using Adobe Illustrator, Figma, and Photoshop, ensuring responsive and attractive designs.
- **Project Management:** Managed end-to-end development from client requirement gathering to final deployment.

Izumi Wellness Center Philippines **2019 – 2022**

Product Consultant (Sales & Communication)

- **Client Communication:** Facilitated therapy sessions for **500–1,000+ clients**, demonstrating ability to explain technical concepts to non-technical users.
- **Sales Achievement:** Successfully sold over **100+ wellness units** through consultative selling.

SELECTED PROJECTS

Enlighten ED (Student Courseware System) **Lead Full-Stack Developer**

***Stack**: Python, PostgreSQL, HTML5, AI Integration*

- Developed a Functional Prototype of a student courseware and skill-tracking system.
- Integrated an **AI helper feature** to assist students with answering queries and finding resources.
- Built the backend using **Python and PostgreSQL**, ensuring secure data management for student records.

Web Application Project (Zuitt CodeCamp) **Backend Developer**

***Stack:** Python, MySQL, HTML5*

- Awarded the **Star Web Development Award** for best implementation and code quality.
- Built a dynamic web application connecting a Python backend to a MySQL database.

Farm Connect(Mabitac, Laguna Agri-Fishery Project Prototype) **Lead Full-Stack Developer**

Stack: *Python, Flask, PostgreSQL, JavaScript, Socket.IO*

- Built a **multi-panel web application** to digitalize the RSBSA farmer registration and approval process for a municipal agriculture office.
- Designed a **strict Role-Based Access Control system** with four dedicated panels: Encoder, Verifier, MAO, and Admin, each with scoped permissions and workflows.
- Implemented **real-time dashboard** updates using Socket.IO, eliminating the need for manual page refreshes on live data feeds.
- **Automated government PDF report generation directly from web form data.**
- Applied Glassmorphism UI with dark/light theme support, micro-animations, and fully responsive layouts.
- **Secured the system with encrypted authentication**, CSRF protection, and role-based routing.

JNHS Portal (Jomalig National High School) **Lead Full-Stack Developer**

Stack: *Python, FastAPI, PostgreSQL, JavaScript, HTML5*

- Built a **full-stack school management portal serving seven role types**: Super Admin, Admin, Principal, Teacher, Student, Parent, and Registrar.
- **Implemented DepEd-compliant grading with the K-12 component weights** (Written Work 30%, Performance Tasks 50%, Quarterly Assessment 20%) and automatic grade transmutation.
- **Developed LRN-based student records**, quarterly grade management, daily attendance tracking, and section-based enrollment.
- **Generated SF9 and SF10 report cards compliant with DepEd standards** directly from the system.
- **Built a Super Admin monitoring panel** with error log tracking, system health metrics, user distribution analytics, and performance dashboards.

CERTIFICATIONS & AWARDS

Star Web Development & UX/UI Design Award - Zuitt **2024 COMPLETED**

Machine Learning with Python - FreeCodeCamp **2025-2026 COMPLETED**

College Algebra with Python - FreeCodeCamp **2025-2026 COMPLETED**

Web Development Bootcamp - GoIT Philippines **2024 COMPLETED**

EDUCATION

Laguna State Polytechnic University - Siniloan Campus **2026**

Divine Word College Of San Jose (Catholic Institution)- Occidental MIndoro **2019**
